RIVER FORECAST

Cal OES INLAND REGION

River Forecast – The following rivers are expected to meet or exceed Flood Stage:

Placer County:

- Truckee River at Truckee is forecast to **remain at or above flood stage now through 04/16/18 and see flows between 4.5 feet and 4.6 feet.**
Flood stage is 4.5 feet.
 - Flood Stage. Minor flooding from Bear Creek in the Alpine Meadows area to Truckee. Truckee River bike path between the River Ranch at Alpine Meadows Road to Tahoe City begins to flood. Basements and yards of some low-lying homes along the river begin to flood. Deep Creek Campground begins to flood. About 2270 cfs. USGS estimates this much flow has about a 1 in 4 chance of being exceeded any year.

River Forecast – The following rivers are expected to meet or exceed Monitor Stage:

Merced County:

- Merced River at Stevinson **crested at 67.6 feet the evening of 04/11/18 and will continue to recede the evening of 04/12/18 to 67.5 feet .**
Flood stage is 71.0 feet.

WEATHER OF CONCERN

Weather of Concern

- Periods of heavy snow will be possible across the higher elevations of Northern California late today 04/12/18.
- Another fast-moving weather system will spread precipitation southward across the Northern California region today 4/12/18.
- Very strong northwest winds are expected to develop in the mountains of Southern California through this evening 04/12/18. The strongest winds will be on the Grapevine through the Interstate 5 Corridor and in the western Antelope Valley. Wind gusts between 60 to 70 MPH will be possible during this time.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

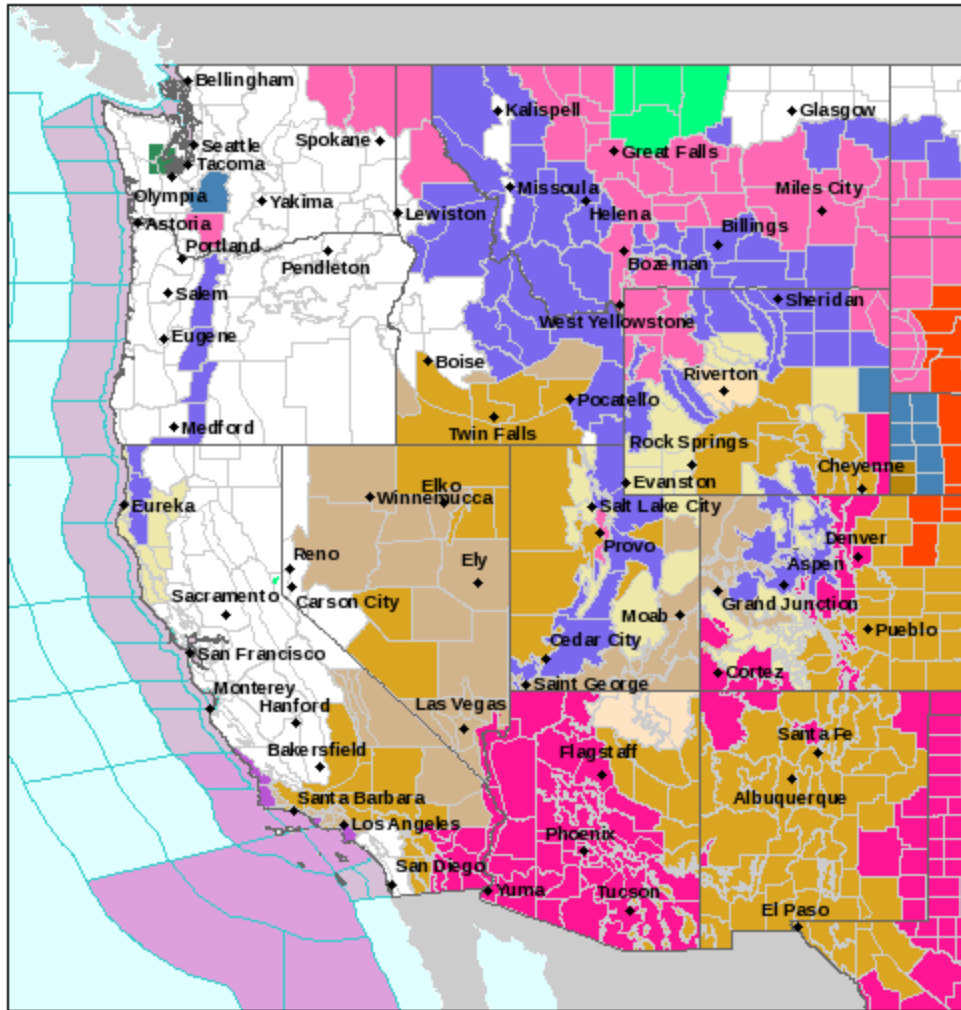

Residual, general light mountain shower impacts will affect the region today. The wind flow will be lighter compared to yesterday although some W-SW breezes will remain favoring the higher ridgetops. High temperatures will be cooler than normal by 5 to 10 degrees. Atmospheric ridging will lead to warmer and drier conditions Friday and Saturday. Wind speeds will be light on Friday and increase Saturday due to some pre-frontal southerly influences. The strongest pre-frontal southerly winds will occur Sunday. Wetting precipitation is expected later Sunday into Sunday night due to a cold frontal passage. Residual showery impacts are expected on Monday with much cooler than normal temperatures. Another Pacific wave passage is expected midweek. Weather models have been jumping around on the impact of the midweek wave but have remained real solid with their weather effects through early next week.

SOUTHERN CALIFORNIA

A Pacific trough over the West Coast will bring westerly winds of 20 to 40 mph with gusts to 60 mph to the mountain ridges and desert passes through this afternoon. The back side of this trough will bring northerly winds of 20 to 40 mph with gusts to 60 mph to much of Santa Barbara County, the Grapevine, and the Owens Valley tonight. There will be some leftover snow showers across the mountains this morning with little in the way of additional accumulation. Maximum temperatures will be well below normal today, with mid 30s to mid 40s across the mountains and upper 50s and 60s in the valleys. A ridge of high pressure will build into California from the Pacific Ocean bringing significant warming along with minimum humidity in the single digits and teens Friday and Saturday. Maximum temperatures will be 10 to 15 degrees above normal by Saturday, with the warmest valley locations approaching 90 degrees. Local northeast winds of 10 to 20 mph with gusts to 35 mph will surface over the mountains and below the canyons and passes of Southern California Friday morning through Saturday morning. Another Pacific trough will approach the West Coast Sunday and move inland Monday bringing much cooler temperatures. This trough will bring scattered showers to the region Sunday evening through Monday evening. Most locations will receive less than a quarter inch of rainfall, but the Sierra will receive up to an inch of rainfall. The snow level will be around 5,000 feet. There will be westerly winds of 20 to 40 mph with gusts to 60 mph across the wind prone mountain and desert areas Sunday evening through Monday evening.

Winter Storm Watch

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2018-LAW-46191, 04/12/18, 0703 hours:** Butte County Sheriff's Office (BCSO) is requesting 6 snowmobiles with operators and a snow cat with operator for a missing person search near the town of Inskip. The missing person is a 70 year old male and has medical conditions. The missing person did not return home from his day trip yesterday. Cal OES LDO in contact with BCSO coordinating. **Mission Ongoing.**
- **2018-LAW-46158, 04/10/18, 1403 hours:** Mendocino County Sheriff's Office (MCSO) requested a SAR mutual aid regarding a missing family of 4, whose vehicle is believed to have gone into the S. Fork of the Eel River, North of Legget, on 04/06/18. Southern Humboldt County Technical Rescue accepted the mission. Cal OES LDO facilitated a request to the California National Guard(CNG) so they can do a feasibility analysis of the area to further assist in prepping for this mission, should they be able to support it, as conditions become suitable for additional assets to search for the missing vehicle and family. **Update: 04/11/18, 0830 hours:** Humboldt County Sheriff's Office (HCSO) boat and team with a side scan sonar requested. HCSO accepted the mission to attempt to locate the vehicle as the water is muddy. **Update: 04/11/18, 1457 hours:** Mendocino County Sheriff's Office (MCSO) has requested an airship from the CNG (Lakota (UH-72) or Blackhawk) to assist them on Friday, 04/13/18, to search the area. CNG working on request. **Mission Ongoing.**

Cal OES MISSION TASKING

Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene – Long-term assignment)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County (Coordinating)
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
